DREYER AND BERGER ARRESTED-SHORTEST RE-CEIVERSHIP ON RECORD-GEORGE A. WEISS AND TWO OF HIS COMPANIES GO DOWN-

Chicago, Dec. 23.-The arrest of E. S. Dreyer and Robert Berger, the discharge of the receiver of the Roseland Bank and the continuation of the savings run on the Illinois Trust and Savings Bank and the Hibernian Banking Association were The public scare is practically over and a co plete restoration of confidence seems to have been effected.

By arrangement of the Police Department, counsel for the defendants and Justice of the Peace W. T Hall, the accused private bankers, Edward S. Dreyer and Robert Berger, entered Justice Hall's private courtroom at 2 o'clock this afternoon. De-tective Fay, who held the warrants which F. E. Kennedy, a saloonkeeper and depositor at Dreyer & Co.'s bank, had sworn to, announced that the were under arrest. The charge in each case is that the bankers received a deposit of \$153 at the of business last Saturday, knowing at the time close of business last Saturday, knowing at the time that they were insolvent. The defendants were ac-companied by Adolf Kraus, their lawyer, and Charles H. Wacker, of the Wacker & Birk Brewing Com-H. Wacker, of the Wacker & Birk Brewing Com-pany. The latter signed the bond of the bankers in the sum of \$500 each for their appearance in Justice Hall's court on January 2. Kennedy says he is acting for himself only, but his action is regarded as mature and ill-advised by those who believe the Dreyer & Co. failure could not be foreseen. Levy Mayer, counsel for the National Bank of Illinois and Dreyer & Berger, said to a reporter for the

United Associated Presses this afternoon:
"Dreyer & Co., cleared through the National Bank of Illinois. At the close of business Saturday after-neon there was not the slightest doubt entertained by the firm or even the shadow of a suggestion that by the first or even the shadow of a suggestion that they would not go on as usual Monday morning. Without a clearance bank they could not possibly open up. The end of the National Bank of Illinois was as sudden as it was amazing. As one of its coun-sel I had not the slightest intimation that there was any suspicion against the bank until lare Saturday night. Dreyer & Co. did not know until Sunday that their clearing bank was in danger. They then took sieps which resulted in the receivership. The receiver has all their property. The agitation at present existing has made some men precipitate and hasty in their criticism, their action and their ad-

eight hours, was that of John H. Nichols, who was appointed receiver Monday afternoon for Frederick Wiersema, proprietor of the Roselend Frederick Wiersema, proprietor of the Roseland Savings Bank, of Roseland, which cleared through the Na-tional Bank of Illinois. The receiver appeared before Judge Hancy this afternoon and reported there were assets of \$83,000 in cash and real estate, and liabilities of \$51,600. Sufficient money had been raised to carry on the business, and the Judge discharged the receiver. The bank will open its doors to-morrow morning.

The runs on the Illinois Trust and Savings and Hibernian banks continued to-day in lesser degree, Hibernian banks continued to-day in lesser degree, and when the usual closing hour arrived there was not enough of a line at each bank to dignify the scare as a run. No vestige of the excitement is expected after Christmas Day. The officers of the Illinois Trust were so confident that the run on their bank had come to an ignoble end that, after paying out under the sixty-day notice rule for depositors of over \$100 for an hour or so, they decided to remove all restrictions, and began payment in full to all depositors in line. At the Hibernian Bank the notice was adhered to. A staff of accountants, in charge of an expert,

was put to work during the day at the Dreyer & Co. and Wasmanndorff & Heinemann banks, and next week a report is expected which will give an intelligent idea of the condition of both houses.
Vice-President Hammond, who is charged with pulling the wool over the eyes of the directors of the defunct National Bank, would not talk for publication when seen to-day at his Evanston home, but a friend, speaking for him, said:

"W. A. Hammond is to be made the scapegoat of the failure of the bank. He is a broken man today, but he is not any more to blame for the amount of money loaned on Calumet Electric seamount of money loaned on curity than are the members of the Finance Committee of the bank and its directors. It was necessary for the purposes of a man connected with the South Chicago City Railway and an officer of one of the biggest banks in Chicago, to depreciate the Calumet road stock, and to this end these two-men accomplished the wreck of the National Bank men accomplished the with the committee of Illinois. Members of the Finance Committee and directors of the failed bank knew the full amount of the Calumet loan, and hoped to make individual fortunes on the success of the venture. pose of the deal was to sell the property, and b pose of the deal was to sell the property, and be-sides paying the bank loan, make a neat sum for the directors. There has been a sharp contest be-tween the General Electric and South Chicago City Railway companies to get control of the Calu-met bonds. The latter road will be worth \$5,000,000 in five years, and the outsiders who ruined the bank know it, but they wanted to buy the bonds

met bonds. The latter road will be worth some in five years, and the outsiders who rulined the hank know it, but they wanted to buy the bonds cheap."

The American Brewing, Malting and Elevator Company, and George A. Weiss Individually, assigned last evening in the County Court. The assignments of the two companies, which are intimately connected in business, and that of Weiss, were brought into court together. The assignee of the American Brewing, Malting and Elevator Company is the Chicago Title and Trust Company. The George A. Weiss assigned to the Security Title and Trust Company. No statement was filed as to the assets and liabilities. The failure of the National Bank of Illinois. The two companies were borrowers from the bank and were indebted to it when it failed to the amount of over half a million dollars.

An officer of the Illinois bank is charged with receiving a commission of \$125,000 for making one of the loans to the Calumet Electric Street Railway Company. Some of the directors of the bank assert that they were not fully informed of the Calumet loans until Saturday, believing them to be nearly \$1,000,000 less in the aggregate than they proved to be.

Another rumor that gained some currency, was one to the effect that many of the loans made by the National Bank of Illinois were unsecured. This was said to be particularly true of the loans made by the National Bank of Illinois were unsecured. This was said to be particularly true of the loans made by the National Bank of Illinois were unsecured. This was said to be particularly true of the loans made by the National Bank of Illinois were unsecured. This was said to be particularly true of the loans made by the National Bank of Illinois. The Chicago fastitution had a large anumber in a position to speak authoritatively on the subject declined to discuss the matter at all. The officials stated that the bank was in the examiner's hands, and the latter declared that he had not yet had time to investigate the matter.

THE SITUATION IN ST. PAUL. DEPOSITORS IN THE BANK OF MINNESOTA

LIKELY TO LOSE LITTLE. St. Paul, Dec. 23.-The machinery for closing up the business of the Bank of Minnesota was set in motion this afternoon by Judge Otis, in the ap-Seymour, cashier of the Merchants' National Bank, its receivers. M. D. Kenyon, Public Examiner, in his petition to the Court, stated that the assets of the bank were \$281,000 in real estate, \$45,000 in cash and \$1,575,000 in loans and discounts. Some surprise was expressed over the last item, as when the bank's last statement, October 6, was made, the loans and discounts were given as \$2,300,600 The Public Examiner has evidently given these at what he regards their actual value. The bank is indebted to depositors in the sum of \$2,341,000, and its liabilities over all assets are \$340,000. As the capital stock is \$900,000 and every stockholder is liable to twice the amount of his stock, it is pretty certain that every depositor will be paid searly dollar for dollar.

There was a short run on two small State banks this morning, but both went through the Clearing House all right and declared themselves ready to meet any demands.

At Ortonville, the Bank of Ortonville had a run this morning because of the fact that William Dawson, jr. cashier of the Bank of Minnesota, is its vice-pre lent. The bank had plenty of funds and is in no danger of suspension.

Great sympathy is felt for William Dawson, who after a banking career of thirty-five years in this city, full of success and honor, is confronted by this calamity. His personal estate is valued at 2,000,000, and other directors are also millionaires.

The Sheriff received three attachments against the Bank of Minnesota, of St. Paul, in favor of J. S. Bache & Co. for \$2,000, Cornelius S. Loder for 5,000, and Henry W. Mittag for \$24,361, the latter being for collections made for the Third National Bank, of Boston, by the Bank of Minnesota, which have not yet been paid. The Sheriff served the at-

tachments on the Chase and Mechanics' National banks.

A WISCONSIN BANK INVOLVED. ITS FUNDS TIED UP IN THE ST. PAUL AND

CHICAGO FAILURES. West Superior, Wis., Dec. Zi.-The Bank of West Superior did not open its doors for business this morning, being forced into liquidation by the fallure of the Bank of Minnesota. The officials of the bank say they will resume soon and pay all depos-itors in full. The November statement showed de-

estate assets, \$43,900. The bank's capital was \$50,000, and surplus \$60,000. The cash on hand was \$22,000, and all but \$2,000 of The cash on hand was \$27,000, and all but \$2,000 of this was tied up in outside failures. The city of Superior and its Board of Education have nearly \$14,000 in the bank, about half of which was deposited within the last few days.

A notice posted on the doors said that the immediate cause of the failure was due to the hank's inability to secure \$20,000 that had been deposited in the Bank of Minnesota, at St. Paul, and the National Bank of Illinois at Chicago.

Bank officers said they looked for the announcement to-day of the failure of a small bank in St.

RECEIVER FOR A MAINE BANK.

Lewiston, Me., Dec. 23.-The American Banking and Trust Company, of Auburn, chartered in 1886, has closed its doors and asked the court for the appointment of a receiver. The deposits are not large, and bank officials say there are assets enough to pay depositors in full as soon as the assets can be turned into cash. The deposits and bills payable amount to \$54.498, and assets nominuly \$139.43. The business of the institution was largely in Western merigages.

BRYAN'S LECTURE FALLS FLAT.

A BIG AUDIENCE IN ATLANTA DISAPPOINTED BY A COMMONPLACE TALK.

Atlanta, Ga., Dec. 23 (Special).-After long and liberal use of biliboards and window lithographs, William J. Bryan opened his lecture tour here tonight. The defeated candidate was liberally ap-plauded when he appeared on the stage of the Grand Opera House and faced an audience of 3,000 people. The applause died out, however, when Mr. Bryan settled down to an hour's commonplace talk on the principles of good government and the talk on the principles of good government and the duties of citizenship. Mr. Bryan was listened to attentively and respectfully, but the concussion of his address left the enthusiasm of his addience his address left the enthusiasm of his addience unspent for lack of opportunity to show itself. The audience was the largest the theatre has held since Patti packed it from pit to dome, and the reception accorded to the speaker was generous, but the lecture itself was a distinct disappointment.

THE APPOINTMENT OF APPRAISERS.

A letter from a badly informed correspondent furnished the material for a statement in The Tribune yesterday which criticised the appointment of such old-timers of Tammany as James J. Martin and Peter F. Meyer to places as Commissioners of Estimate and Appraisal for lands to be acquired by the city, and reflected upon Corporation Counsel Scott as the offi-

cial responsible for these appointments.

A little inquiry on the correspondent's part would have convinced him that such appointments belong to the Justices of the Supreme Court, who have ab-solute power of selection in such cases. As many of solute power of selection in such cases. As many of these Justices owed their election to a Tammany Hall nomination and some of them are already looking for a renomination of the same kind, it cannot be a matter of surprise that they sometimes choose men with Tammany affiliations for such places.

A member of the Corporation Counsel's staff said yesterday that Mr. Scott's custom was, when yesterday that Mr. Scott's custom was, when he moved for the appointment of Commissioners of Estimate, etc., to recommend two names for the Juscice's selection. "Sometimes," he added, "the recommendations were respected. Sometimes only one name sent in by him was appointed. Sometimes the Judge ignored the recommendation and made all the appointments himself. Nothing can be more unjust to Mr. Scott than to say that he recommended the appointment of Mr. Martin or Mr. Meyer. The Corporation Counsel, being a Democrat himself, may be expected to lean somewhat toward the appointment of Democrats for commissioners, but the record will show that the most of these appointments under Mr. Scott's administration have gone to Republicans,"

REPLIES TO THE COMPLAINT OF A KAN-SAS SOCIETY.

THE AUTHORITIES HERE DECLARD THAT STATE

Kansas, published in Monday's Tribune, to the effect making that favored State a dumping ground for ourse of the last ten years, has perhaps excited some indignation here in the breasts of right-minded permay be abated to some extent, have for their somewhat radical statements. Tribune reporter visited several New-York men who are prominent in the work of caring for the needy the case, and the information he obtained did not tend to confirm the allegations of the Western Frederick W. Devoe, president of the New-York

officials of this society are engaged in the work of
picking vagrant ragamuffus and other unfortunate
children out of the streets, or out of undestrable
homes, and making respectable men and women of
them. Many of the boys they take in charge are sent
to the Brace Farm School, at Kensko Staion, and
trained for farm work. Numbers of them are then
sent out West and are adopted by the people there,
with the best of results. Many of these boys have
been raised to the bonch or to other places of honor
and respectability. When a recent investigation of
this system of emigration was made in Kansas, concertary of the Children's Aid Society;

"The statement that homeless walfs from this city
are 'dumped' into the State of Kansas," said Secretary Brace, 'is due to the unpleasant feeling with which the Children's Home Society, whose headquarters are at Chicago, but which has an organization in Kansag, regard our work. They have an
idea that we interfere with them, which is by no
means the case. The children are welcomed by the
hospitable Kansas people themselves, and when a
party from the Kensico Farm is taken out, there are
four applications to one boy. The reason we send
the children West is that by long experience we
find they turn out better there than here.

"Good homes are readily provided for the boys we
send, and we select none from Kensico that are not
likely to turn out well. I have not heard of a single
instance in which one of our emigrants has been
guilty of crime. Only 2 per cent turn out bad—that
is to say, become vargants and are sent to the
reformatories for some triffing offence. We have
three visiting agents in the West, who are always
looking out for them.

"A complaint similar to this one reached our ears
about fifteen years ago, I think from Wissonsin, We
investigated the case and found that only one or two
of our boys were in the reformatories there, at the
expense of the State. We had them brought back to
New-York at once, as is our custom in such cases,
and we stand ready to do this at any time."

sixth-st., there will be a dinner for homeless and friendless women New Year's Day. THE CORONER CALLS IT SUICIDE.

The death of James Linsey, twenty-five years old yesterday, at his home in the tenement-house West Twenty-ninth-st. of which his father is the fanitor, was investigated by the Coroner. Linsey had been out of work and had applied in vain recently for an appointment as a letter-carrier. Yesterday morning, after having shovelled the snow from the sidewalk in front of his home, he complained of pains in his stomach and asked his mother to make a mustard plaster for him. He then went to his room, where he was soon afterward found in a comatose condition. A physician was summoned, but the young man died before his arrival. Coroner Fitspatrick, after an

autopsy had been made, said that Linsey had com-mitted suicide by swallowing carbolic acid. The young man's parents and brothers and sisters denied that he had committed suicide, and said his death was caused by heart disease, but they admitted that there was carbolic acid to which he could have had easy access in the house. Neighbors of the family said that Linsey was in love with a grocer's daughter, who did not reciprocate his affection, and they be-lieved that he had killed himself on account of his disappointment in love.

PRIZE TRIPE AND OYSTER EATERS.

THE ROSCOE CONKLING REPUBLICAN CLUB HAS A SUMPTUOUS FEAST.

There have been champion pie and egg eaters, and New-Jersey boasts of a man who can eat a barrel of apples in three days, but it remained with the Roscoe Conkling Republican Club, of this city, to produce the champion tripe and oyster eaters. The club did so at a tripe and oyster dinner which it gave last night at its clubhouse, No. 527 Fifth-ave.

well-fed politicians and their friends, and fully 150 people ranged themselves around the dinner tables last night. Two hundred pounds of tripe, forty gallons of oysters and large quantities of many other things had been provided to appease the appetites of the hungry diners, and with the assistance of an abundance of liquid refreshments it all disappeared. Neither the tripe nor the oysters that way, but the jolly diners were-and they were proud of it. What a feast it was: What eating, The Hoboken Turge Club, with its insignificant

There are no laggards among us. Each man does his work with dilligence and care. As a result of this tendency, I may sa; that we will have decided by January 1 over 94 appeals, besides 200 motions not placed on the regu-lar calendar. Yet no portion of this work has been done perfunctorily or superficially. Every opinion presented to the Court by one of its judges is the result of earnest care, and has been made intel-ligible to himself at least-if not to his associates.

(Laughter.) Before any opinion is passed on by the
Court, a written copy of it is placed in the hands
of each of the Apeliate Judges, that he may study
and criticise it beforehand. Then when the opinion
is finally handed down, it is really the opinion of
the Court, and not of the single judge whose name
stands at its head. It is this influence that has
made our work as satisfactory as it is."

THE MISSING DRIVER NOT FOUND.

THE MISSING DRIVER NOT FOUND, The team and delivery wagon which was found abandoned in a Mount Vernon street on Tuesday night with Christmas goods valued at \$1,000, are still in charge of the local police. The deliverybook found in the wagon showed that a considerable amount of money had been collected by the missing driver for New-York firms. The police are searching for the man, but have no clew to him. The firms whose goods were in the wagon have been informed.

A YOUNG THIEF CAPTURED. Henry Faver, fifteen years old, of No. 136 West

Twenty-sixth-st., was arrested last evening by Detectives Wolf and Hunt, of the West Thirtieth-st. station. When arraigned in the Jefferson Mar-Detectives Wolf and Flum, of the west functors, station. When arraigned in the Jefferson Market Court this morning a number of complainants will appear against him to prefer charges of larceny. Faver was formerly employed as errand boy at the Stirling laundry, No. 448 Sixth-ave., but was discharged about six months ago. Since that time he has visited several customers of the laundry, principally at boarding houses, and under pretence that he wished to get the laundry of persons living in the house would gain admission, and from the rooms of occupants steal whatever he could in the way of jewelry. His thefts amount to several hundred dollars. He admitted his gullt last evening, and a number of pawn tickets for watches and other jewelry were found in his possession. It was learned later that on November 2 Faver went to the Burlington apartment-house, No. 1) West Thirtieth-st., and entered the rooms of Charles Howard Platt, and stole a watch, chain and ring valued in all at \$190. On December 4 he entered the rooms of George P. Backus, No. 4t West Twenty-sixth-st., and stole clothing valued at \$35. He was concerned in many other thefts.
